

MINI-RAD MIRROR

MIRROR ATTACHMENT FOR THE MINI-RAD CAMERAS

The Mini-Rad Mirror is an attachment that can be mounted to the Mini-Rad 30 HD and Mini-Rad F30 HD cameras. The mirror enables inspections inside narrow tubes and similar spaces. No extra lights are needed thanks to the small LEDs placed beside the mirror.

APPLICATIONS

- Suitable for inspection inside confined spaces
- The mirror is fixed at a 90° angle of view
- Controlled by the CCU50 which controls camera on/off, focus and manual adjustments of the lights

BENEFITS

- The lights beside the mirror can operate underwater as well as in air
- 2 LED light channels for individual control

SPECIFICATIONS

Diameter	30 mm (1.18")
Length	Adds 28 mm (1.1") to the camera
Housing material	Stainless steel
Lights	800 Lumen
Color temperature	4500°K
