

MINI-RAD Mirror

MIRROR ATTACHMENT FOR THE MINI-RAD CAMERAS

ahlbergcameras.com/products/accessories/mini-rad-mirror

The Mini-Rad Mirror is an attachment that can be mounted to the Mini-Rad 30 HD and Mini-Rad F30 HD cameras. The mirror enables inspections inside narrow tubes and similar spaces. No extra lights are needed thanks to the small LEDs placed beside the mirror.

MORE INFORMATION MINI-RAD MIRROR

APPLICATIONS

- Suitable for inspection inside confined spaces
- The mirror is fixed at a 90° angle of view
- Controlled by the CCU50 which controls camera on/off, focus and manual adjustments of the lights

BENEFITS

- The lights beside the mirror can operate underwater as well as in air
- 2 LED light channels for individual control
