

## T-COMPLEX

# PROTECTION AGAINST CRITICAL BREAKDOWN AND DAMAGE

ahlbergcameras.com/products/software/t-complex

T-complex system is designed to monitor specific industrial buildings, parts of critical infrastructure and technological processes, where is an increased risk of critical situations due to a breakdown of technical equipment. Maximum system functionality is achieved through a unique combination of professional detection systems, thanks to which, it turns into acomplex monitoring system suitable for sophisticated industrial applications.

#### MORE INFORMATION

#### **SPECIFICATIONS**

#### COMPREHENSIVE INTEGRATION

- Thermographic cameras for continuous temperature monitoring of objects, automatic detection of overheating or fire, post-analysis of temperature changes
- Sensors for continuous monitoring of selected process parameters and physical quantities, automatic detection of exceeding preset levels, post-analysis of data changes
- CCTV cameras for 24/7 video surveillance monitoring, advanced video analytics, post event analysis
- · Additional monitoring and safety modules

#### EASY TO USE FOR EFFICIENT WORKING

- · Virtual cockpit interface with 3D look
- Full touch-compatibility with intuitive operation
- Optimized ergonomics
- Clear user interface via a fixed layout of the elements
- · PTZ control element with advanced functions
- Completely new video player with shuttle wheel

#### REDUNDANCY CONCEPT

- · Guarantee of image recording if a recording server fails
- System access even if the central administration server fails
- Support for Windows Cluster and virtualization
